

# Our Values - in everything we do

## Ideas into action

We seek to understand the needs of children, families and support agencies and we work together to harness new ideas and drive change to improve the child protection and family support system.

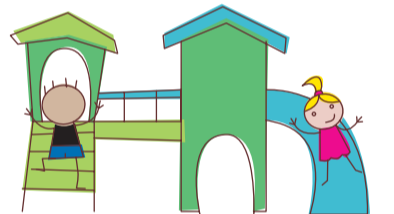

## Customers first

We are passionate about listening to the voices and placing the interests of children and families at the heart of every decision we make.

## Unleash potential

We are open to everyone's ideas and leadership. We value diversity of thought and we allow space for creativity to thrive to develop our people and the organisation.

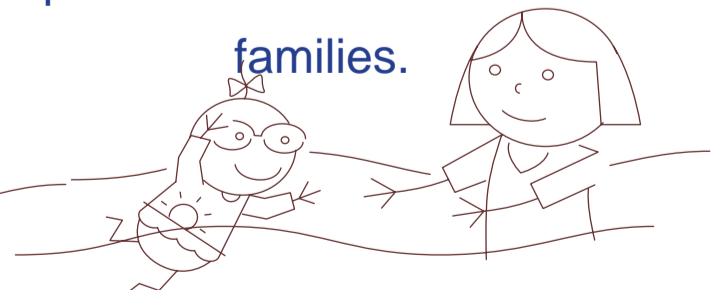

## Be courageous

We invite and reward courageous ideas and those who constructively challenge the way we work and we encourage feedback to learn from our experiences and each other.

## Empower people

We respect each other's leadership and we provide our staff with the time, resources and confidence to perform their work to deliver the best possible outcomes for children and families.
